

Berlin, 14 to 28 August 2010

International Summer School on Innovative Approaches in Regenerative Medicine

Berlin

Did you always want to

- know which diseases can be treated using regenerative therapy?
- look into other disciplines involved in regenerative medicine?
- learn more about stem cell therapy?
- find out about the process of developing a therapy?
- visit Berlin and discover its cultural and scientific landscape?

Then join us at our International Summer School on Innovative Approaches in Regenerative Medicine.

Requirements

The Berlin-Brandenburg School for Regenerative Therapies (BSRT) invites applications from students with a Bachelor or Master degree in biology, biochemistry, bioengineering, bioinformatics, engineering, physics, chemistry or medicine.
